# Avery Buescher

Hansen Buescher

**Holly Springs, NC - 27540**
**(919) 457-7370 - hbuesche@gmail.com**
[AveryBuescher.github.io/](AveryBuescher.github.io/)

*Hard working, creative and diligent person with excellent problem-solving skills and quick learning capacity. Eager to learn new things and take on new challenges, and will apply a perfectionist work ethic to any task.*

## WORK EXPERIENCE

### Capstone Project, Fuquay Varina, NC — *Lead Software Dev*

January - May 2021

Worked as part of a team of 5 to design, build, and test an application based on the provided SRS document, then presented it to an audience of industry mentors and faculty.

### HCL Technologies, Cary, NC — *Xerox Remote Support Analyst*

March 2022 - Current

Participated in Rise at HCL's apprenticeship program in the application development track before being moved to a contract. At Xerox, continued role-specific training for support and pre-sales with a variety of technologies including a range of MFP devices, production presses, and Fiery print servers.

## EDUCATION

### Harnett Central High School, Angier, NC

August 2013 - June 2017

### Wake Technical Community College
*AAS Computer Programming and Development*

Spring 2018 - Spring 2021

## NOTABLE PROJECTS

### Game Design and Programming

Designed, programmed and presented a 90's style arcade game for a Future Business Leaders of America competition in the computer game and simulation programming category at the state and national level, which received 4th place nationally.

### WTCC Programming & Information Sciences Capstone Project

A calendar application that allows users to create and view events, integrate and synchronize with google calendar, and categorize their events in order to view metrics on how they spend their time.

## SKILLS

Organization, Critical Thinking, Resourcefulness, Communication, Conflict Resolution, Computer Programming

## TECHNICAL PROFICIENCIES

Knowledge of object-oriented programming and application development, and the software development life cycle.
